PT RESCUE

slowly but surely®
TURTLE PLASTICS®
THE RECYCLED PRODUCTS COMPANY

Safety First

Turtle Plastics is proudly used by Extrication Trainers and Specialists across the globe. Every year, we support various extrication training events, competitions and fire academies. Our extensive line of dura crib™ and dura stat™ Stabilization Tools provides multi-use applications ranging from single vehicle stabilization to urban search and rescue operations. Experienced instructors recognize the benefits of using our dura crib and dura stat tools and have been an integral component in our product research and development over the years. The feedback provided by professionals in the field using our products has helped us bring to you a premium product designed with your safety in mind. We welcome your comments and suggestions as well. Please contact us at fireinfo@turtleplastics.com to share your thoughts.

In remembrance of Big Rescue Instructor Billy Leach, The Turtle Plastics Foundation announces The Billy Leach Fire Training and Equipment Grants Fund. The Turtle Plastics Foundation, a not-for-profit organization, will be offering grants to qualified 501(c)(3) rural volunteer fire departments with very limited funding to help with training and equipment.

The Turtle Plastics Foundation was formed on June 22, 2017 in order to establish a broad-based nonprofit organization whose mission is to advocate, create, support and promote educational, environmental, health and safety initiatives worldwide in addition to continuing Tom and Karen's work in Haiti establishing a 2400 student school and a hospital. It will accomplish this mission through grants, donations, public awareness events and other marketing efforts. The Foundation plans to make distributions to Internal Revenue Code Section 501(c)(3) organizations. The focus of the Foundation will be the support of worth non-profit causes related to the improvement of public health, education, safety and the global environment.

Thirty eight years ago, Tom Norton, founder of Turtle Plastics, was given a banner for his office with a caption that read, "The Turtle only makes progress when it sticks its neck out." The giver thought Tom spent a lot of time sticking his neck out in various business enterprises. When it came time to name the new company, "Turtle" seemed appropriate because of Tom's willingness to stick his neck out to create products from recycled plastic to focus on environmental health and safety concerns.

Today, we remain committed to our customers' environmental, health and safety challenges with innovative and sustainable re-engineered plastic products, while creating a spirit of peace, love and caring for the environment, our employees and our community.

by Turtle Plastics®
tomorrow re:imagined

EHS Environmental | Health | Safety

E Our products are made in the U.S.A. from recycled post industrial PVC, PET, LDPE and HDPE plastic. To complete the full sustainability component of recycling, we offer an end of product life take back program. This reduces landfill waste while increasing our customers return on investment.

H Workforce health and welfare are at our forefront in product design. All of our products are washable, impervious to most common industrial chemicals and resistant to splintering. Ergonomic design is provided to deliver maximum worker comfort while using our products.

S Our products are engineered with a repeatable and reliable formula providing superior performance which has been tested under lab conditions to ensure worker safety. We strive to create safety solutions for our customers through continuous product innovation.

Turtle Plastics Environmental Practices

- Our products are made in the U.S.A. from **100% recycled** post industrial PVC, PET, LDPE and HDPE plastics.
- As a company, we are centered on **environmental sustainability** at all levels throughout our company from our internal leadership to our value chain.
- Turtle Plastics products support Corporate Social Responsibility initiatives while **increasing** our customers' return on investment.
- Turtle Plastics partners with all customers with a **take back program** for our products—reducing disposal and landfill costs and supports zero waste policies.
- We **do not use wood** in any of our products. Our cribbing products are a solution to the historical use of wood in many industries including manufacturing, agriculture, fire/rescue, transportation, mining and heavy equipment.
- Recycling is part of an **ethic of resource efficiency**—of using products to their fullest potential. When a recycled material, rather than a raw material, is used to make a new product, natural resources and energy are conserved.
- The results of using **recycled plastic** include cleaner air and water, less pollution, more forested land and open space, and reduced greenhouse gas emissions.

re:think safety

Why Turtle Plastics' stabilizing tools are essential for vehicle and equipment stabilization.

Many types of materials are commonly stacked into a "cribbing" configuration and used in equipment repair, and often the crib stack is used in conjunction with other stabilization equipment, such as pneumatic or hydraulic shoring. Expressions such as "lift an inch, crib an inch" and "pack as you jack" are used to remind operators of the importance of cribbing to safely secure and protect the equipment and technician.

Historically wood has been used for cribbing or material storage. We know wood cribbing is not tested. Wood absorbs liquids and pathogens leading to a dangerous work environment.

Turtle Plastics' line of dura crib and dura stat are a safer and eco-friendly solution to crib or block in many industries including agriculture, automotive, construction, mining, rail and transportation.

UNSAFE REPAIR ENVIRONMENT USING WOOD CRIBBING

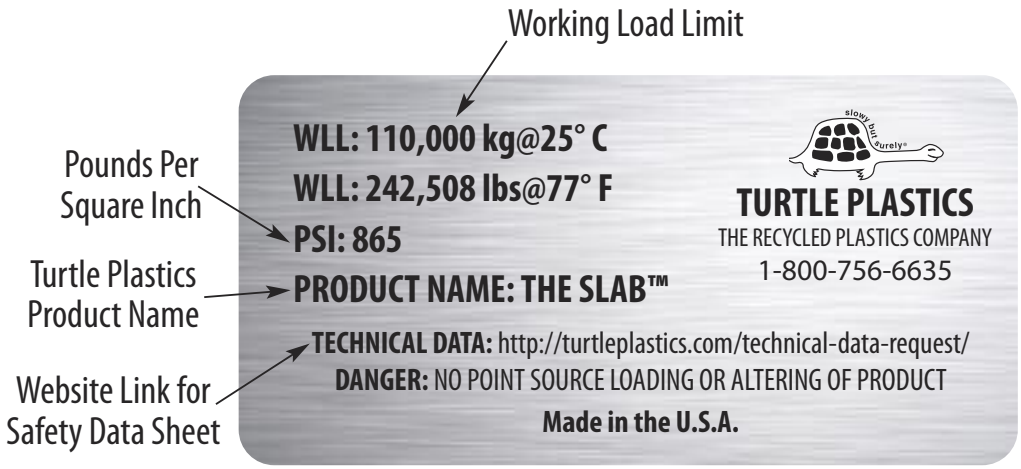
SAFELY STABILIZED CRIB STACKS USING DURA CRIB BRAND

Dura Crib - OSHA Safety Compliance

"When used correctly, dura crib brand of products can create a compliant and safer work environment by providing technicians who repair equipment with a proper 'lock out tag out' of stored energy. This type of hazardous energy is created when hoisted or jacked equipment is not given a secured platform. Wood cribbing does not interlock, is not tested and is subject to unseen degradation via environmental factors or absorption of fluids. All these factors create an unsafe and unpredictable work surface that cannot contain stored energy... Under 29 CFR 1910.147 LOTO, for stored energy not being controlled and 'locked-out' can also be used as the basis of a citation." —Angelique Bracer, COHC, SHS

Visual Labeling Can Save Your Life

Turtle Plastics is leading the way in workplace safety by labeling our composite dura crib brand tools to identify Working Load Limit with color coded lanyards and safety identification tags. No more guessing on the strength of a crib block. In fact, we reference our dura crib brand products as tools because of their strength and reliability in getting a job done. Our dura crib tools are independently lab tested.



What kind of labeling does your wood have?

Choose the right Turtle Plastics tool for extrication, repairs or storage.

dura crib ✤ dura stat®

Re:engineered Plastic Cribbing, Blocking & Stabilization Tools

Extrication Stabilization

dura crib

(Multiple Layer Application)

Engineered interlocking composite plastic cribbing has raised pyramid and blocking profiles designed for multiple layer applications. Offered in a variety of Working Load Limits and sizes.

ACTIVE LOAD

Use dura crib tools for **multiple layers** during repairs.

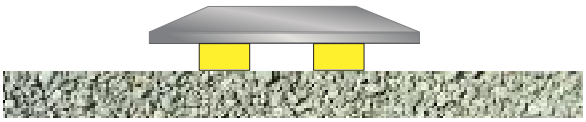
Storage

dura stat

(Material Storage Only)

Engineered smooth surface composite block designed for material storage only. Sizes range from a 2″x2″ profile up to a 6″x8″ profile. Lengths up to 12′.

STATIC LOAD



Use dura stat tools for **material storage only**.

Turtle Plastics dura crib interlocking cribbing is recommended for any stabilization above a single layer. Always refer to your training resources for stabilization specifications. **Use Turtle Plastics dura stat for material storage only.**

Always avoid point source load with dura crib and dura stat.

DO NOT MIX DURA CRIB AND DURA STAT CRIBBING TOGETHER OR WITH WOOD ANYTIME.

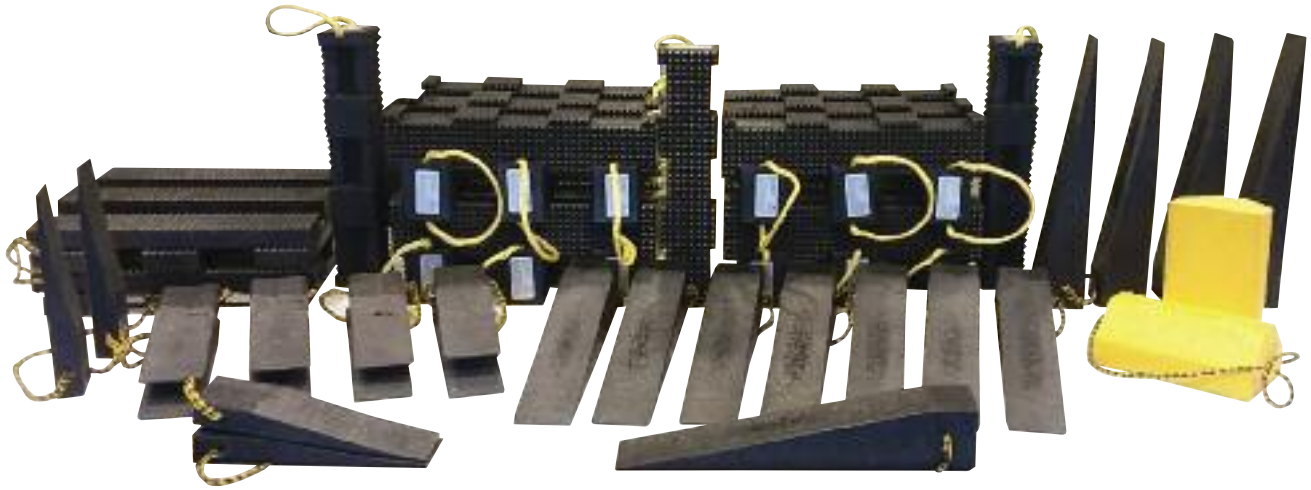
2	3W	3″ x 8.5″ Wedge

USAR Kit A Gen 2



New!

Urban Search and Rescue Kits

Rescuers worldwide agree that there is no such thing as being over-prepared for USAR Operations. According to Instructor Billy Leach, "Cribbing is one of the most frequently used and essential tools during rescue operations and is considered to be among the strongest means of support." Buildings are taller, vehicles are larger, machinery is heavier and the need for reliable cribbing that can withstand even the heaviest loads is crucial. These new larger USAR Kits are appropriate for:

- Overturned vehicles.
- Passenger rail.
- Debris within collapsed buildings.
- Heavy industry rescue operations.

USAR Kit D Gen 1

Part #	Included Components	Total Kit Wgt

Prime Crib

OUR MOST POPULAR STABILIZING CRIB!

prime crib

- Two working surfaces in one block.
- Locking "lincoln log" style sides allow for additional stability and multiple stacking configurations.
- Versatile, affordable blocking solution.
- Used in heavy equipment, construction, transportation, rail and surface mining.
- Lanyard on two sides of block.
- Complete crib kits available with this block. Kits section starts on page 6.

Slip-resistant pyramid locking surface creates a strong, more stable base than wood.

The G Series line of dura crib tools has a slip-resistant pyramid locking surface combined with locking "lincoln log" style sides creates a secure and more stable crib stack than wood.

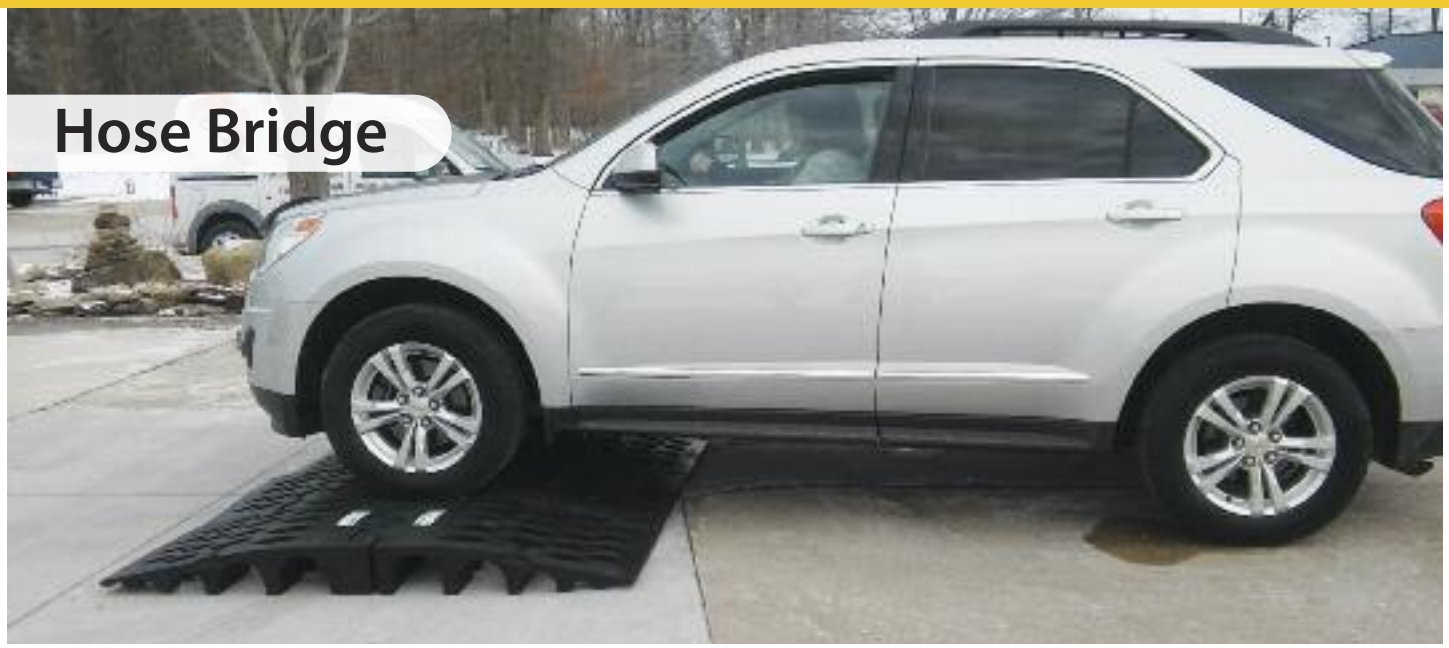
ALL TURTLE PLASTICS® PRODUCTS
MADE IN USA



Hose Bridge

standard hose bridge

- Openings: accepts 5", 4" and 3" O.D.
- Creates a temporary safe passage for driving over hoses.
- For use on flat surfaces such as streets, roadways, parking lots, paved highways, paved sidewalks and pool areas.
- 4 piece kit.
- Supports up to 14,000 lbs. per axle.
- Each component weighs only 60 lbs.
- Easy to assemble.
- Patented design (U.S. Pat. No. D552,217).

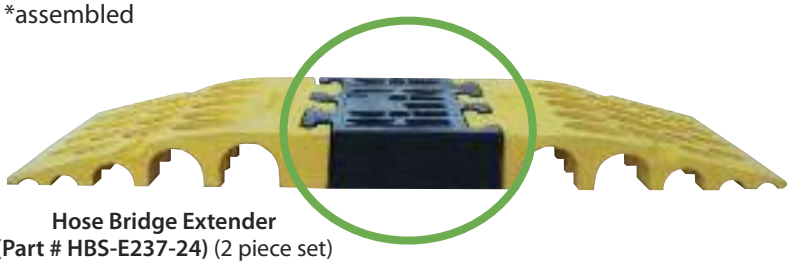
Standard Hose Bridge (Part # HBS) (4 piece set)

Part #	Product Name	Dimensions*	Total Kit Wgt
HBS	Hose Bridge Set	70″ x 49″ x 6¾″	108.86 kg./ 240 lbs.

*assembled

hose bridge extender

Lengthen the distance between ramps for optimum vehicle clearance. Works with standard and super hose bridge.



Hose Bridge Extender (Part # HBS-E237-24) (2 piece set)

hose bridge joiner

Used when making a roadway out of your hose bridge application. These patented all-stainless joiners locks the hose bridge in place.

Hose Bridge Joiner (Part # HJ)

Ideal accessory. Hose Bridge Extender (Part # HBS-E237-24) (2 piece set)

Part #	Product Name	Dimensions	Wgt
HBS-E237-24	Hose Bridge Extender	27 9/16″ x 23 1/8″ x 6 3/4″	27.21 kg./60 lbs.
HJ	Hose Bridge Joiner		0.907 kg./2 lbs.

Ideal protection for large diameter hoses.

Super Hose Bridge (Part # HBS68) (6 piece set)

super hose bridge

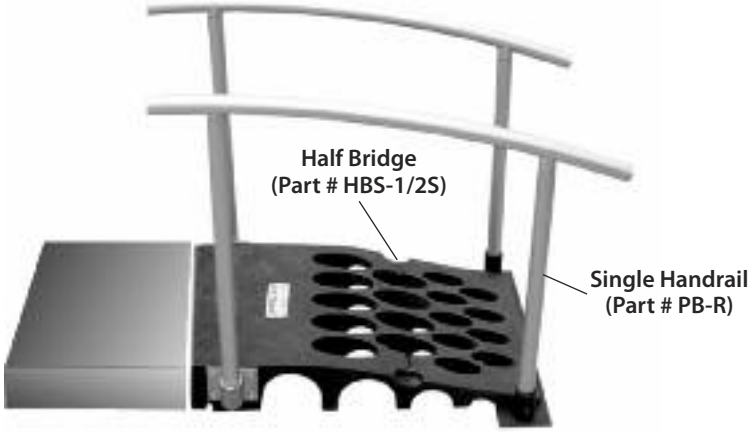
- For use on flat surfaces such as streets, roadways, parking lots, paved highways, paved sidewalks and pool areas.
- Creates a temporary safe passage for driving over hoses.
- Openings: accepts 6˝, 8˝ and 10˝ O.D.
- Ideal protection for large diameter hoses.
- Larger hose openings than our Standard Hose Bridge.
- Wide ramps for easy access.
- Available with yellow reflective striping and side reflectors.
- Patented design.
- 6 piece set.
- Puzzle piece shapes.
- 14,000 lbs. per axle load capacity.

Part #	Product Name	Dimensions	Total Kit Wgt
HBS68	Super Hose Bridge	126˝ x 49˝ x 12¼˝	244.94 kg./ 540 lbs.

Hose Bridge Accessories

pedestrian hose bridge

- Reduce trip hazards by creating a temporary pedestrian bridge anywhere.
- One person can carry and assemble.
- Open grid grit top for dry, slip-resistant footing.
- Available as a half bridge model for curb access and optional holes for securing bridge to the ground.
- Compatible with our Standard Hose Bridge. Not available for Super Hose Bridge.



Part #	Product Name	Wgt
HBS-1/2S	Half Bridge	27.21 kg./60 lbs.

Dura Stat Engineered Blocking

CREOSOTE FREE

dura stat

- Composite re-engineered plastic blocks.
- Smooth profile on all four sides.
- Replaces metal framing and wood timbers for storing raw materials.
- Superior performance to railroad timber profiles.
- For indoor/outdoor material storage only.
- Ideal alternative to wood on tractor trailers during material transportation (dunnage).
- Easy to clean, won't rot, split or absorb moisture.
- Customized configurations to meet your indoor/outdoor storage criteria.
- All lumber sizes are nominal and weights are approximate.

For material storage only.

Turtle Trax | Modular Rail Kit System

http://turtleplastics.com/wp-content/uploads/turtle-trax-june-2018.mp4

turtle trax
temp RR xing

- Portable modular rail crossing system provides safe crossing for most types of vehicles during rail repair.
- Durable, ergonomic modules.
- Quick and easy on-site assembly.*
- Patented design.**

There's no need to have local law enforcement on hand to redirect traffic or close crossings for repairs. From start to finish, Turtle Trax installs in less than two minutes, using either sledge or air hammer. Puzzle design locks the multiple pieces securely in place.

THE Turtle Tube™

Why wait until you need one?

"Over the past 50 years, more than 900 cases of grain engulfment have been reported, and the fatality rate is 62%."

Read the full story by the Nebraska Corn Board as it appears on the Nebraska Farmer website.

Part #	Product Name	Wgt
TUTU-1	The Turtle Tube	8.16 kg./18 lbs.

the turtle tube grain bin rescue sleeve

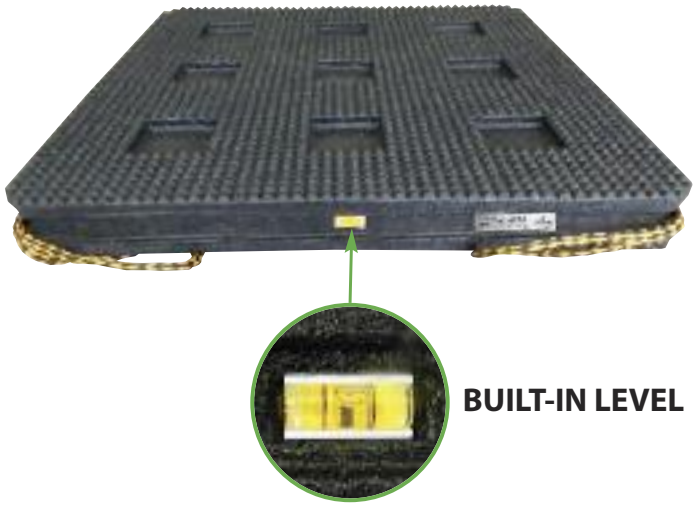
At Turtle Plastics, we feel that even just one silo accident is too many. We believe that The Turtle Tube is the best rescue sleeve available today.

- Developed specifically for use in grain handling at food processing plants, breweries, elevators and grain transport vehicles.
- Designed, developed, tested and built by farmers and firefighters, working together to better save lives.
- Rapid deployment.
- One-piece construction.
- 15″ storage diameter.
- Carrying bag included.
- Weighs only 18 lbs.
- Priced well below competitors.
- Training available.
- Patented design*.

Carrying Bag

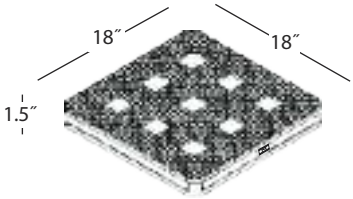
*The Turtle Tube U.S. Pat. No. D809,210

Protection Pads



mod pad

- Multi-use interlocking stabilizing plate for top and bottom of G Series crib stacks.
- Use on top of crib stack to provide a level, uniform top, and on bottom of crib stack, with wedges, to achieve optimum level. See page 11 for kit.
- Use under an air lifting bag. See page 11 for kit. Airbag not sold through Turtle Plastics.
- Built-in level.
- Two sizes: 18″ x 18″ x 1.5″, or 24″ x 24″ x 2″.
- Patented design*.



Mod Pad

IMPORTANT! ***Only crib with dura crib brand products.***

- To reduce the risk of point source failure, it is recommended that you use a protection pad with your crib stack (see page 33 for more information).
- Always refer to the vehicle's or equipment's manufacturer's guide for proper cribbing instructions.
- All dura crib products are to be used horizontally, *never* vertically.

Always avoid point source load with any product.

Turtle Plastics Limited Warranty On dura crib and dura stat

1. Turtle Plastics (hereinafter "Company") warrants to the original purchaser at retail of its Products (hereinafter "Product") that:

A. For five (5) years from the date of the original purchase at retail, Company will provide a replacement Product for any Product that breaks for any reason other than obvious abuse or damage due to misapplication or improper installation.

B. For ten (10) years from the date of the original purchase at retail, Company will provide a replacement on any Product that is sagging for any reason other than damage due to misapplication or improper installation.

C. For fifty (50) years from the date of the original purchase at retail, Company will provide a replacement Product for any Product that becomes defective as a result of rot, termite infestation or corrosion.

D. A Product shall be deemed broken or defective when it lacks the capacity to perform the primary function for which it was manufactured.

2. TO OBTAIN PERFORMANCE UNDER THIS WARRANTY, the original purchaser at retail must return the broken or defective Product to Company postage paid, with a copy of the invoice documenting the date of purchase. Any Product returned for replacement under this warranty must be clearly marked with a "warranty return authorization code", which the original purchase at retail may obtain from Company. Company will ship a replacement Product to the original purchaser at retail, postage due, within ten (10) days of receiving the broken or defective Product. Company reserves the right to challenge any warranty claim for failures resulting from obvious abuse or damage due to misapplication or improper installation.

3. ANY EXPRESS WARRANTY NOT PROVIDED HEREIN, AND ANY REMEDY FOR BREACH OF CONTRACT WHICH BUT FOR THIS PROVISION MIGHT ARISE BY IMPLICATION OF OPERATION OF LAW, IS HEREBY EXCLUDED AND DISCLAIMED. THIS SALE IS MADE ON THE EXPRESS UNDERSTANDING THAT THERE IS NO IMPLIED WARRANTY THAT ANY PRODUCT SHALL BE FIT FOR ANY PARTICULAR PURPOSE OR AN IMPLIED WARRANTY THAT ANY GOODS SHALL BE MERCHANTABLE. THE ORIGINAL PURCHASER AT RETAIL ACKNOWLEDGES THAT SAID PURCHASER IS NOT RELYING ON COMPANY'S SKILL AND JUDGEMENT TO SELECT OR FURNISH GOODS SUITABLE FOR ANY PARTICULAR USE.

4. UNDER NO CIRCUMSTANCES SHALL COMPANY BE LIABLE TO THE ORIGINAL PURCHASER AT RETAIL OR ANY OTHER PERSON FOR ANY SPECIAL OR CONSEQUENTIAL DAMAGES, WHETHER ARISING OUT OF BREACH OF WARRANTY, BREACH OF CONTRACT, OR OTHERWISE. COMPANY SHALL IN NO EVENT BE LIABLE FOR ANY BREACH OF WARRANTY IN AN AMOUNT EXCEEDING THE PURCHASE PRICE OF ANY PRODUCT.

5. COMPANY SHALL IN NO EVENT BE BOUND BY ANY STATEMENT OR REPRESENTATION AS TO THE QUALITY OR PERFORMANCE OF ANY PRODUCT, OTHER THAN AS CONTAINED IN THIS WARRANTY. Turtle Plastics® DOES NOT GUARANTEE THE ACCURACY OR COMPLETENESS OF ANY INFORMATION CONTAINED HEREIN AND IT IS THE CUSTOMER'S RESPONSIBILITY TO CONDUCT ITS OWN DETERMINATION REGARDING THE SUITABILITY OF SPECIFIC PRODUCTS FOR ANY GIVEN APPLICATION.

6. ANY ALTERATION OF THE ORIGINAL MANUFACTURER'S PRODUCT THAT IMPACTS PERFORMANCE OF THE PRODUCT OR ALTERS ORIGINAL QUALITY AND WORKMANSHIP OF THE PRODUCT WILL VOID THE WARRANTY.

Turtle Plastics Limited Warranty on Tile Products:

- ½" and ¾" Turtle Tile - 1212 (black and color)
- ¾" Super Soft Turtle Tile - 1212SS (black and color)
- ¾" Ultra Soft Turtle Tile - 1212US (black)
- ¾" Solid Surface Turtle Tile - 1212S (black and color)
- ¾" Solid Super Soft Turtle Tile - 1212-S-SS (black and color)
- Ramps - AM/AF

A. WARRANTY DETAILS:

The materials and workmanship used in the construction of the Turtle Tile products above are backed by a five- year warranty under normal work place conditions.

If the purchaser discovers a defect in the materials or workmanship of a Turtle Tile modular tile, Turtle Plastics will, at its own discretion, either:

i) repair the nonconforming product,
ii) replace the product with the same or substantially similar product, or
iii) reimburse the buyer for the purchase price of the nonconforming product based on the expected useful life of the product.

Turtle Plastics reserves the right to inspect the non-conforming tile(s) before repairing, replacing or reimbursing the buyer. Therefore, at the preference of Turtle Plastics, the tile(s) must be returned or available for on-site inspection. Modifying, coating or installing the tile(s) may void the warranty. The decision to void this warranty will be made at the sole discretion of Turtle Plastics. To the maximum extent permitted by law, Turtle Plastics' liability shall not exceed the purchase price of the product; Turtle Plastics shall not be liable for any incidental, consequential, special, and indirect or punitive damages (including without limitation, damages from lost business, profits or goodwill).

THE USER MUST BE FAMILIAR WITH THE U.S. ARMY CORP OF ENGINEERS GUIDE AND ONLY THE END USER CAN DETERMINE LOAD CAPACITY. ANY BENDING, DEFLECTION, SAGGING, BULGING OR DEFORMITY WILL NECESSITATE ADDITIONAL CRIBS. As the use of our products under user's conditions are beyond our control, no warranty, expressed or implied, including but not limited to, merchantability or fitness for a particular use, is made concerning our products. DISCLAIMER: Under no circumstances shall company be liable to the original purchaser at retail or any other person for any special or consequential damages, whether arising out of breach of warranty, breach of contract, or otherwise. Company shall in no event be liable for any breach of warranty in an amount exceeding the purchase price of any product, nor will company be bound by any statement or representation to the quality or performance of any product.
