Because you never get a second chance

THE NEW  
**SP 333**

## ➤ More power, less weight. The new standard in the compact-class.

It has the highest spreading force in its class and even 20% more power than its previous model. The SP 333 is also 23% lighter than its predecessor, the SP 300. And it even looks better too. Other benefits include the squeezing plates built into the arms and the sharp "Shark Tooth" tips with their irresistible grip. With this impressive package of benefits, the new tool is perfect for all hazard situations where it comes down to high-performance spreading, squeezing and pulling with minimum weight. The SP 333 clearly sets the new standard in the compact class.

### Facts

- + highest spreading force in its class
- + optimised performance: 23% lighter and 20% stronger than its predecessor
- + squeezing plates built into the arms
- + maximum bite thanks to innovative "Shark Tooth" tips

### „Shark Tooth“ tips

The right grip for spreading when every second counts: the design of the specially developed "Shark Tooth" tips and their arrangement in 4 rows guarantee maximum bite!

➤ Technical data	SP 333		
Spreading force up to	9,442 – 187,940 lbf. / 42 – 836 kN	Pulling distance	17.3 in. / 440 mm
Spreading distance	23.6 in. / 600 mm	Oil requirement	9.15 cu.in. / 150 cm <sup>3</sup>
Squeezing force	32,500 lbf. / 144 kN	Dimensions L x W x H	28.5 x 11.2 x 7.95 in. / 723 x 285 x 202 mm
Pulling force up to	12,589 lbf. / 56 kN	Weight	29.5 lbs. / 13.4 kg
