

LUKAS

Because you never get a second chance

THE NEW
SP 555

Powerful and light. Sets the standard in the all-rounder class.

The new all-rounder-class champion: This life-saver with a powerful bite offers real professionals more performance and even more success! With a massively improved performance this compact all-rounder weighs in at just 16.2kg and puts out 13% more power than its predecessor SP310! The design of the SP 555 rescue spreader has also massively improved and it now shows its stubborn "Shark Tooth" tips in hazardous situations. To make the SP 555 even stronger, the squeezing plates are integrated directly into its arms. In short: With this spreader, you come out as the clear winner in any rescue!

Facts

- + optimised performance: 18% lighter and 13% stronger than its predecessor
- + squeezing plates built into the arm
- + developed for all rescue work for road traffic accidents and in buildings
- + maximum bite thanks to innovative "Shark Tooth" tips

„Shark Tooth“ tips

The right grip for spreading when every second counts: the design of the specially developed "Shark Tooth" tips and their arrangement in 4 rows guarantee maximum bite!

Technical data		SP 555	
Spreading force up to	11,690–147,924 lbf. / 52–658 kN	Pulling distance	22.4 in. / 569 mm
Spreading distance	28.7 in. / 730 mm	Oil requirement	14.6 cu.in. / 240 cm ³
Squeezing force	25,900 lbf. / 115 kN	Dimensions L x W x H	32.4 x 11.2 x 7.95 in. / 823 x 285 x 202 mm
Pulling force up to	13,039 lbf. / 58 kN	Weight	35.7 lbs. / 16.2 kg
