

## LIQUID FUEL HOSE

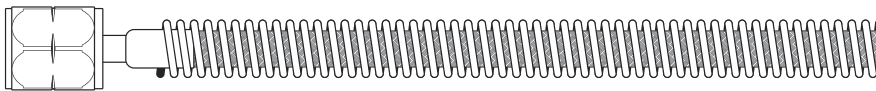

[Part #3055-3059]

The Liquid Fuel Hose is now better than ever. Replacing the red “gasoline” hose, this updated Petrogen Liquid Fuel Hose has an inner TEFLON tubing that now dramatically prolongs the life of the hose, eliminating any potential of ethanol damage. It also includes two stainless steel layers of tough, rugged protection.

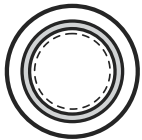

### PREVIOUS RED “GASOLINE” HOSE

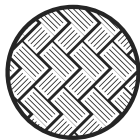

### NEW LIQUID FUEL HOSE

A.

B.

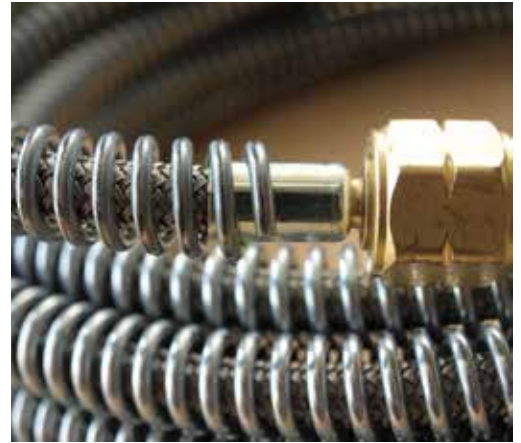

C.

### SAFETY FEATURES:

- A. PTFE interior tubing which prevents damage from long-term exposure to petroleum.
- B. Stainless steel mesh which protects the hose from sparks or other unforeseen hazards.
- C. Stainless steel coil which protects the hose from ground debris and traffic.
