

Small and rugged, perfect for police, fire, first responders, maintenance crews, DOT safety workers, etc. ICS™ sequential flare is designed to replace traditional magnesium perchlorate flame flares. They are quick and easy to deploy and provide warning plus directional information not available with flame or other flares on the market. The new rechargeable system is even more environmentally friendly and offers economical savings when compared to other products on the market.

The Pi-Lit® Ice Cream Sandwich™ “smart flare” incorporates a novel radio-linked network to automatically sequence the flash. Approaching vehicles see a sequential string of flares much like a runway landing “rabbit” that warns and guides traffic around the incident. Easy to deploy, single button press, improving traffic guidance and safety.

SPECIFICATIONS

- Available in both a Rechargeable or Alkaline battery system
- Battery life:~ 24-30 hours (Rechargeable), 48-60 hours (Alkaline)
- Charge time from dead battery ~ 4 hours
- No tools required to change batteries (Alkaline version)
- 360 degree horizontal viewing angle, 180 degree vertical viewing angle
- 50+ foot range (15.2 meters) between flares (when on ground)
- Rugged (can be driven over, dropped, etc.)
- IP65. Use in all types of weather (rain, snow, ice, fog, etc.)
- No limit to the number of flares in a string
- 1-Year Manufacturer’s Warranty
- FCC Compliant

FEATURES

- Battery status check with push of a button
- Magnetic base (can attach to back of vehicle to create light bar)
- Five flash patterns to choose from (change patterns to all flares from any single flare)
- NEW simultaneous flash pattern (flares flash in unison)
- 12 bright Side LEDs, 4 brightTop LEDs
- Automatically selects top or side LEDs based on angle orientation of flare (lockable)
- Different LED and case color options: orange, red, blue, amber/yellow (custom colors upon request)
- Top LEDs will brightly light up inside of cone
- Turn off all flares with one button
- NEW Reverse Sequence Mode (Change the sequence direction during deployment or operation)
- Carrying case acts as charger dock and will charge all flares at once
- Sold in sets of 4, 6, or 10-flares
- Included: Carrying/Charging Case, Car Charger, Wall Charger (Rechargeable), Carrying Case, AA Batteries
