

SC 358

The perfect combination of cutting and spreading

rescue.lukas.com/combi_special_tools_sc358.html

Advantages

- + Reliable cutter and spreader in a single tool
- + Aggressive blade geometry for the highest possible cutting power
- + Removable spreader tips for more effective cutting due to reduced material compression
- + Effective pulling thanks to the KSV 11 chain set
- + Very low oil requirement – perfect for mobile motor pumps
- + Impressively short opening and closing times for rapid rescue activities
- + Maximum mobility due to low weight (< 15 kg)

Recommended applications

- + Initial rescue measures, e.g. to get primary access to injured persons
- + Rescue work inside buildings
- + Civil protection
- + Rescue work for traffic accidents
