Because you never get a second chance

THE NEW SP 333 E2

More power, less weight. The new standard in the mobile compact-class.

This rescue spreader exceeds all expectations: Despite weighing 2.4 kg less than its predecessor SP 300 E2, it packs 20% more power. It is no wonder that it looks so good. An optimised high-performance rescue battery ensures that it does not run out of steam at just the wrong moment. The SP 333 E2 is impressive not only thanks to the squeezing plates built into the arms, but also its sharp "Shark Tooth" tips with their irresistible grip! Real professionals cannot do without the SP 333 E2, as it sets the new standard in the mobile compact-class.

Facts

- + optimised performance: 12 % lighter and 20 % stronger than its predecessor
- + maximum bite thanks to innovative "Shark Tooth" tips
- + squeezing plates built into the arms
- + rescue without power unit and hoses
- + powered by an optimised high-performance rescue battery

„Shark Tooth“ tips

The right grip for spreading when every second counts: the design of the the specially developed "Shark Tooth" tips and their arrangement in 4 rows guarantee maximum bite!

Technical data		SP 333 E2	
Spreading force up to	9,442–187,940 lbf. / 42–836 kN	Pulling distance	17.3 in. / 440 mm
Spreading distance	23.6 in. / 600 mm	Dimensions L x W x H	35.6 x 10.0 x 11.2 in. / 905 x 255 x 258 mm
Squeezing force	32,500 lbf. / 144 kN	Weight*	38.1 lbs. / 17.3 kg
Pulling force up to	12,589 lbf. / 56 kN	Protection class	IP 54

*Weight without battery or power supply
