

Tilt N' Deploy Extrication Tool Mounts

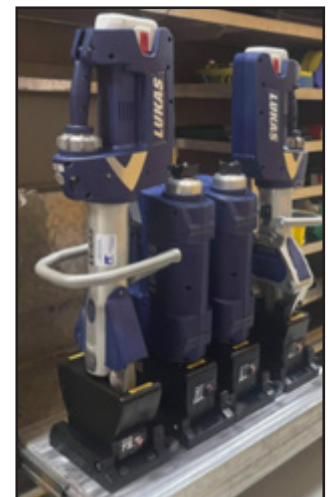

PT Rescue is pleased to offer the innovative Tilt N' Deploy Rescue Tool Mounting Systems. Manufactured in America, these tool mounts revolutionise the way extrication tools are stored and accessed. Designed specifically with Rescue Services in mind, these robust compact tool mounts enable fast, efficient and easy access to your tools, and are specifically designed for each brand and model of rescue tool.

Unlike other tool mounts in the market, Tilt N' Deploy's ergonomic design helps protect the user from injury when deploying and stowing their tools, and protects the rescue tool from damage when in stowage.

Features:

- Auto-Lock when returning to vertical position
- Heavy Duty design with small footprint
- Quick and easy deployment of tool
- Designed for each specific tool brand & model
- Available for Cutter, Spreaders, Combi's, Rams
